

2024 NPA Annual Conference

Exhibitor and Sponsorship Prospectus

A Place for Connections

The National PACE Association (NPA) works to advance the efforts of Programs of All-Inclusive Care for the Elderly (PACE®). PACE programs support, maintain, safeguard, and promote the provision of quality, comprehensive and cost-effective health care services for frail older adults. Currently, 159 PACE programs are operating in 32 states and the District of Columbia. NPA members are operational PACE programs, organizations developing PACE programs or exploring the feasibility of starting a PACE program, and other organizations supportive of the PACE model of care.

Since its founding in 1994, NPA has created an expanding program of education and training directed toward our members and the health care community at large. The NPA Annual Conference provides multiple opportunities for education, networking and information-sharing geared to executive and clinical staff at operational and prospective PACE programs. The conference faculty is drawn from existing PACE programs, long-term care and community-based elder care providers, and managed care and health systems. Speakers have expertise in PACE and other health services for seniors.

Reach Your Target Market

PACE programs are innovative, creative, and committed to delivering high-quality care and services to their participants. They are motivated to find improved ways to deliver care and services across settings, including the PACE center and the home. If these are the clients you seek, you may be interested in partnering with us as an exhibitor or sponsor at the 2024 NPA Annual Conference, which will be held Oct. 13-16 at the Manchester Grand Hyatt in San Diego, CA.

More than 950 individuals attended the 2023 conference, including administrators, primary care and clinical staff from PACE programs and those organizations considering PACE development, as well as state and federal legislative and regulatory staff. Most attendees represent organizations with budgets between \$10 million and \$30 million that are looking for ways to invest today in order to save tomorrow. In light of the many new federal and state data collection and submission requirements, PACE programs are beginning to look closely at health plan and health provider IT/IS products and services to enhance efficiency and effectiveness in managing data.
